

Aga Furgalska

MULTIMEDIA DESIGN STUDENT

ABOUT

I'm a FrontEnd Developer in the making, with skills in HTML5, CSS3, JavaScript, and React. I'm not just about tech skills; I'm also creative and good at working in teams. I manage my time well and can adapt to new challenges. I'm eager to learn and open to feedback. Outside of coding, I'm into art, books, and animations. Let's connect and build some great projects together!

EXPERIENCE

Online Brand Protection Analyst Assistant

RightHub | November 2022 - September 2023

Performed copyright and trademark infringement research on major auction websites while meticulously maintaining and uploading client patent, copyright, and trademark data onto the company platform.

Cook

Cross Cafe | May 2022 - present

Contributed to the culinary team of a restaurant, preparing high-quality dishes, maintaining kitchen hygiene, and ensuring efficient kitchen operations.

Documentation and Operations Coordinator

Alfa Guard Security Sp. z o.o. | July 2021 - January 2022

Managed document collection, invoicing, and resolved conflicts, fostering seamless communication and collaboration between drivers and freight forwarders.
